Professional Summary

Highly skilled and detail-oriented **Automation Tester** with 7 years of experience in designing, developing, and executing automated test scripts for web and mobile applications. Proficient in leveraging tools like Selenium, Appium and TestNG to ensure software quality and reliability. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Strong expertise in continuous integration/continuous deployment (CI/CD) pipelines and Agile methodologies.

Technical Skills

- **Automation Tools:** Selenium WebDriver, TestNG, JUnit, Postman, Appium
 - **Programming Languages:** Java, JavaScript, C#
 - **Frameworks:** Data-Driven, Keyword-Driven, Hybrid
 - **CI/CD Tools:** Jenkins
 - **Version Control:** Git, GitHub
 - **Test Management Tools:** Jira, Zephyr
 - **Other Tools:** Eclipse, Postman, Jmeter
-

Professional Experience

Senior Automation Tester

Rather Outdoors India, Bengaluru / October 2021 – Present

- Designed and implemented automated test frameworks using **JAVA, Selenium WebDriver** and **TestNG**, reducing manual testing efforts by 40%.
- Developed and maintained automated scripts for API testing using **Postman**.
- Collaborated with development teams to identify and resolve bugs, improving overall software quality.
- Mentored junior testers on automation best practices and tools, enhancing team productivity.
- Conducting cross-browser and cross-platform testing for web and mobile browser using **LambdaTest tool**.
- Thoroughly understanding requirements during grooming sessions.
- Strong knowledge of Agile methodology and Actively participating in Scrum meetings and resolving issues.

Software Test Tester

Edusys global, Bengaluru / Nov 2019 – September 2021

- Automated regression test suites for web and mobile applications using **Appium** and **Selenium**, reducing regression testing time by 30%.
- Worked closely with QA analysts to translate manual test cases into automated scripts.
- Participated in Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives.

QA Engineer

Sridama Business Solutions, Bengaluru / Feb 2018 – Sept 2019

- Conducted functional, regression, and smoke testing for web applications.
- Wrote and executed manual test cases, documenting defects in **Jira**.
- Assisted in the transition from manual to automated testing processes.
- Gained foundational knowledge of **Selenium** and **Java** for test automation.

Education

Master of Computer Applications - 2015

Visveswarayya Technological University, Belagavi

Certifications

- **Selenium WebDriver Certification**
- **Agile Testing Certification**

Projects

Automated Regression Testing Framework

- Designed a hybrid automation framework using **Selenium WebDriver**, **TestNG**, and **Maven**.
- Integrated the framework with **Jenkins** for scheduled test executions.
- Reduced regression testing time by 70% and improved test coverage.
- Conducted performance testing using **JMeter** to ensure application scalability and reliability.

Achievements

- Recognized by on-site team for outstanding contributions to automation testing processes.
- Successfully automated 80% of manual test cases, significantly reducing testing timelines.
