Professional Summary

Results-driven Automation and Manual Tester with 7 years of overall experience, in developing and executing automated test scripts for web and mobile applications. Proficient in Selenium, Appium, TestNG, and Postman. Expertise in CI/CD pipelines, Agile methodologies, and cross-functional collaboration to ensure software quality.

Technical Skills

- **Manual Testing:** Functional Testing, Regression Testing, System Testing, UAT, Exploratory Testing
 - **Automation Tools:** Selenium WebDriver, Nuget, JUnit, Appium, Postman
 - **Programming Languages:** C#, JavaScript
 - **Frameworks:** POM, Data-Driven, Hybrid, BDD (Gherkin)
 - **CI/CD Tools:** Jenkins, Azure DevOps
 - **Version Control:** Git, GitHub
 - **Test Management:** Jira, Zephyr
 - **Other Tools:** Eclipse IDE, JMeter, Visual Studio IDE
-

Professional Experience

Senior Automation Tester

Rather Outdoors India, Bengaluru | Oct 2021 – Present

- Designed and implemented automation frameworks using **C#, Selenium**, and **TestNG**, reducing manual testing by 60%.
- Developed and maintained API test scripts in **Postman**.
- Integrated automated tests into the **Jenkins CI/CD** pipeline.
- Conducted cross-browser and cross-platform testing using **LambdaTest**.
- Mentored junior testers on automation best practices.
-

Software Test Engineer

Edusys Global, Bengaluru | Nov 2019 – Sept 2021

- Automated regression test suites for web and mobile apps using **Appium** and **Selenium**.
- Translated manual test cases into automated scripts, reducing regression testing time by 60%.
- Participated in Agile ceremonies and sprint planning.

QA Engineer

Sridama Business Solutions, Bengaluru | Feb 2018 – Sept 2019

- Conducted mobile UI/UX, functional, and compatibility testing across Android & iOS platforms.
 - Ensured app responsiveness and adherence to platform guidelines.
-

Education

- **MCA (Master of Computer Applications)** – Visvesvaraya Technological University, 2015
 - **BCA (Bachelor of Computer Applications)** – Karnataka University Dharwad, 2011
-

Key Projects

- Performed manual testing including functional, regression, system, UAT, and exploratory testing across various projects.

Automated Regression Testing Framework

- Developed a hybrid automation framework using **Selenium WebDriver**, **TestNG**, **Gherkin**.
- Implemented API testing with Postman for end-to-end validation.
- Integrated with **Jenkins CI/CD** for automated execution, reducing regression testing time by 70%.
- Conducted performance testing using **JMeter** for scalability assessment.

Rather Outdoors Global E-Commerce

- Conducted manual functional and regression testing alongside automation efforts.
- Automated test scripts for web applications using **C#**, **Selenium WebDriver**, and **TestNG**.
- Conducted API testing with Postman and collaborated with developers to resolve defects.
- Performed cross-browser and cross-platform testing using LambdaTest.

Vmedu (EdTech Platform)

- Performed manual and automated testing to ensure software reliability.
- Automated regression tests for web and mobile apps using **C#** and **Selenium**.
- Worked with QA teams to convert manual test cases into automation scripts.

Vabro (AI-Powered SaaS Platform for Project Management Tool)

- Conducted manual and automated functional, UI/UX, and compatibility testing across multiple devices and OS versions.
 - Conducted functional, mobile UI/UX, and compatibility testing across multiple devices and OS versions.
 - Ensured seamless user experience on Android and iOS platforms.
-

Achievements

- Recognized by the on-site team for significant contributions to automation processes.
 - Automated 80% of manual test cases, reducing testing timelines.
-

Certifications

- Selenium WebDriver Certification
- Agile Testing Certification
